CONTENTS

Volume 26 Number 1 February 1991

1 Review: Enzyme inactivation during heat processing of food-stuff *J. B. Adams*

21 Thermal stability of carthamin bound to insoluble polymers—effects of pH and organic and inorganic compounds *K. Saito & A. Fukushima*

27 Age gelation in UHT-processed reconstituted concentrated skim milk *A. B. McKenna & H. Singh*

39 Effect of safflower protein isolates on cookie characteristics *C. Ordorica-Falomir & O. Paredes-López*

45 Effect of moisture content on flow behaviour of molten soy-protein isolate under an elevated temperature *Y. Fujio, N. Hayashi & I. Hayakawa*

53 The aqueous extraction of glucosinolates from rapeseed *H. M. Dietz, R. D. King & R. V. Harris*

65 Factors influencing the particle size distribution of flaked meat. II. Effect of aperture size, number of cutting stations, rotational speed and impeller design *P. R. Sheard, A. Foster-Smith & P. D. Jolley*

83 The effect of natural or artificial casing on the ripening and sensory quality of a mould-covered dry sausage *P. Roncalés, M. Aguilera, J. A. Beltran, I. Jaime & J. M. Peiro*

91 Water vapour sorption isotherms of two cake mixes and their components *M. C. Leiras & H. A. Iglesias*

99 Mathematical modelling of hot air drying of sweet potato slices *L. M. Diamante & P. A. Munro*

111 Measurement of water activity with an electric hygrometer *F. K. Stekelenburg & H. Labots*

Short Communication

117 Effect of pre-soaking on the rate of thermal softening of soybeans *A. P. Gandhi & M. C. Bourne*

123 Book Reviews

Volume 26 Number 2 April 1991

133 Review: Prediction and measurement of pasta quality *M. E. Cole*

153 Quality attributes of four rice varieties *T. N. Khan & N. S. Reddy*

157 Role of sorbic acid in nonenzymic browning reactions in liquid and solid model food systems *B. R. Thakur & S. S. Arya*

165 Increased supercooling in irradiated foods *P. Nesvadba*

173 Low resolution pulse nuclear magnetic resonance study of water equilibration in dried carrots *J. P. Monteiro Marques, D. N. Rutledge & C. J. Ducauze*

185 The effect of low- or non-sweet additives on the stability of protein functional properties of frozen cod surimi *J. Sych, C. Lacroix, L. T. Adambounou & F. Castaigne*

199 Effect of temperature on the particle size distribution of flake-cut meat *P. R. Sheard, P. D. Jolley & P. A. J. Rush*

207 Physical measures of sensory texture in thawed sea scallop meat *S. L. Chung & J. H. Merritt*

211 Loss of urea from the flesh of ray (*Raja radiata*) during the canning process *Laura Pastoriza & G. Sampedro*

215 The response of unripe Conference pears to modified atmosphere retail packaging *J. D. Geeson, Pia M. Genge, S. M. Smith & R. O. Sharples*

225 Limitations to modified atmosphere packaging for extending the shelf-life of partly ripened Doyenné du Comice pears *J. D. Geeson, Pia M. Genge, R. O. Sharples & S. M. Smith*

233 Book Reviews

Volume 26 Number 3 June 1991

241 Cause of and methods to reduce methanol content of Tsicoudia, Tsipouro and Ouzo *K. Kana, M. Kanellaki, A. Papadimitriou & A. A. Koutinas*

249 Stability and opacity of orange oil cloudy emulsions based on gum elemi and gum arabic *O. Jacome-Guth, A. Aserin & N. Garti*

259 A clouding agent based on modified soy protein *N. Garti, A. Aserin & D. Azaria*

271 Isoprotein composition and cross-linking of thaumatins using mushroom tyrosinase and dimethyl suberimidate *Pamela V. Ramsohoye & I. A. Kozlov*

283 Thermal stability of fish myofibrils: a differential scanning calorimetric study *B. K. Howell, A. D. Matthews & A. P. Donnelly*

297 Quantitative changes in bacteria, amino acids and biogenic amines in sardine *(Sardina pilchardus)* stored at ambient temperature (25–28°C) and in ice *L. Ababouch, M. E. Afilal, H. Benabdeljelil & F. F. Busta*

307 INT reduction as a basis for determining bakers' yeast viability *G. Bitton, D. B. Ivanoff & B. Koopman*

313 Application of rapid methods and ultrasound imaging in the assessment of the microbiological quality of aseptically packed starch soup *G. Wirtanen, T. Mattila-Sandholm, M. Manninen, R. Ahvenainen & U. Rönner*

325 Automated fluorimetry in quality control of pasteurized and ultra-high temperature-treated starch soup *T. Mattila-Sandholm, T. Ali-Vehmas, G. Wirtanen, U. Rönner & M. Sandholm*

337 Composition, sensory quality and respiration during ripening and storage of edible wild mango *(Irvingia gabonensis) K. Joseph & O. C. Aworh*

343 Book Reviews

Volume 26 Number 4 August 1991

363 The composition of the fatty acids and aldehydes of the ethanolamaine and choline phospholipids of various meats *A. C. Fogerty, F. B. Whitfield, D. Svoronos & G. L. Ford*

373 Fluorimetry via a quartz-glass rod for predicting the skin content and processing characteristics of poultry meat slurry *H. J. Swatland & S. Barbut*

381 Catalysis of the sorbic acid-thiol reaction by bovine serum albumin *B. L. Wedzicha & A. Zeb*

385 Effect of amidation on the foaming and physico-chemical properties of bovine serum albumin *Nazlin K. Howell & Claire Taylor*

397 Influence of γ-irradiation and ice storage on fat oxidation in three Indian fish *S. V. Ghadi & V. Venugopal*

403 Optimization of extrusion cooking of lung proteins by response surface methodology *D. H. M. Bastos, C. H. Domenech & J. A. G. Arêas*

409 A finite element model for conduction errors in thermocouples during thermal sterilization of conduction-heating foods *G. Kanellopoulos & M. J. W. Povey*

423 Vitamin profiles of kefirs made from milks of different species *W. Kneifel & H. K. Mayer*

429 The use of the Multiple Comparison Test in checking product variability *Nerys M. Griffiths*

433 Book reviews

Volume 26 Number 5 October 1991

437 Stabilization of ascorbic acid by microencapsulation in liposomes *C. J. Kirby, C. J. Whittle, N. Rigby, D. T. Coxon & B. A. Law*

451 Chemical interesterification of olive oil-tristearin blends for margarines *V. Gavriilidou & D. Boskou*

457 Indirect ELISA for detection of goats' milk in ewes' milk and cheese *E. Rodríguez, R. Martín, T. García, J. I. Azcona, B. Sanz & P. E. Hernández*

467 Changes in rheological and viscoelastic properties and protein breakdown during the ripening of 'Port Salut Argentino' cheese *N. C. Bertola, A. E. Bevilacqua & N. E. Zaritzky*

479 Effect of pasteurization and fermentation on residues of sulphonamides in sausages *L. I. Ellerbroek & G. Steffen*

485 Effect of shooting period, region of growth and processing method on the Fe and Mn content of tea determined by X-ray fluorescence *Y. Sahin, S. Nas & H. Y. Gökalp*

493 Bioavailability to rats of iron from fortified grain amaranth flour *M. O. Ologunde, R. L. Shepard, O. A. Afolabi & O. L. Oke*

501 Microbial development during tempeh fermentation from various beans and effect of *Lactobacillus plantarum* on the natural microflora *M. Ashenafi & M. Busse*

507 Effect of irradiation and modified atmosphere packaging on the microbiological and sensory quality of pork stored at refrigeration temperatures *I. R. Grant & M. F. Patterson*

521 Effect of irradiation and modified atmosphere packaging on the microbiological safety of minced pork stored under temperature abuse conditions *I. R. Grant & M. F. Patterson*

535 Modelling of a series of continuously stirred tank reactors for thermal processing of liquid foods *F. Xavier Malcata*

547 Moisture isotherms of cornchips at three temperatures *I. I. Achoba, J. A. Elegbede, A. S. Agbaji & E. B. Agbaji*

Volume 26 Number 6 December 1991

553 Amorphous state and delayed ice formation in sucrose solutions *Y. Roos & M. Karel*

567 Entrance effect correction on the flow of moisturized soy protein isolate melt in an extrusion viscometer. *Hayashi, I. Hayakawa & Y. Fujio*

575 Hydrostatic pressures in wet grinding of soybean with a double-disk attrition mill *S. Furuta, I. Hayakawa & Y. Fujio*

583 Adsorption isotherms of gari for estimation of packaged shelf-life *G. Chuzel & N. Zakhia*

595 Changes in the concentration of carbohydrates during the soaking of soybeans for tempe production *R. K. Mulyowidarso, G. H. Fleet & K. A. Buckle*

607 Changes in the concentration of organic acids during the soaking of soybeans for tempe production *R. K. Mulyowidarso, G. H. Fleet & K. A. Buckle*

615 Changes in lipids and in sensory attributes on storage of rice milled to different degrees *J. R. Piggott, W. R. Morrison & J. Clyne*

629 Effect of packaging and frozen storage temperature on beef pigments *M. C. Lanari & N. E. Zaritzky*

641 Effect of CO2 or vacuum packaging on normal and high pH meat shelf-life *S. Rousset & M. Renerre*

653 Effect of irradiation and packaging type on sensory quality of chill-stored turkey breast fillets *J. A. Lynch, H. J. H. MacFie & G. C. Mead*

669 Effect of dose rate and length of storage on the ESR signal strength in irradiated chicken bone *R. Gray & M. H. Stevenson*

673 Theoretical design analysis for a new instrument for the measurement of lean content of cartoned boneless meats *K. R. Davey*

683 Evaluation of a pilot on-line instrument for the measurement of lean content of cartoned boneless beef *K. R. Davey & D. A. Lovett*

695 On-board handling and freezing of the sea scallop, *Placopecten magellanicus* *S. L. Chung & J. H. Merritt*
